## WORK SUMMARY

### AVAILABLE

#### *Looking for my first opportunity*

- While I may not have prior experience, I am dedicated to becoming a valuable addition to any company that chooses to offer me the opportunity to kickstart my career and become an integral part of their team. I am prepared to exert double the effort, surpass expectations, and express my gratitude through tangible results.
- As a note, I am actively engaged in ongoing studies to enhance my proficiency with various tools and technologies. I am committed to intensively focusing on acquiring any additional knowledge that the position demands, aligning my continuous learning with the evolving needs of the role.

## ACADEMIC BACKGROUND

### COMPLEMENTARY SKILLS

#### *Udemy, Platzi, Deep Learning | 2020-2023*

- Python
- SQL and relational Databases
- HTML and CSS, understanding of JavaScript
- Prompt Engineering

### DEVOPS ENGINEER (CURRENTLY STUDYNG)

#### *Faculty of Exact, Physical, and Natural Sciences (F.C.E.F. y N.) National University of Cordoba (U.N.C.). | 2023-actuality*

- AWS services core (EC2, S3, IoT, IAM, etc)
- Docker
- Terraform
- Git
- NoSQL (mongoDB)
- MySQL
- Jenkins

## SOFT SKILLS

- Curious
- Autonomous
- Great communicative skills
- Collaborative as a team member
- Problem solver
